

TVIS

Technical Value Infrastructure Solution

Trading & Contracting

About us:-

TVIS Trading & Contracting operates under a newly updated commercial registration, marking a strategic evolution of our business identity. Although the CR has been renewed, our presence in the Saudi market extends well over a decade. For more than 10 years, our team has been actively serving clients in Riyadh and Buraidah, delivering pump solutions, technical support, and industrial services under previous company structures. Today, with our updated CR name and number, we continue the same trusted journey with enhanced capabilities, clearer organizational direction, and expanded partnerships—ensuring stronger performance and consistent service excellence for all our clients

Why We're Your Best Choice?

We supply high-quality water pump systems supported by deep technical expertise and strong collaborations with global manufacturers. Our solutions cover a wide range of applications, from commercial projects to complex industrial systems. Clients trust us for precise product selection, reliable installation support, and responsive after-sales service.

Strategic Strengths:-

Our partner network is one of our strongest assets. Through established relationships with major international brands, we provide dedicated sales, technical, and electrical support across all product lines. This enables us to respond quickly in critical situations, maintain operational continuity, and deliver dependable service from design to post-installation support.

Our Vision:-

To be a trusted pump supplier known for quality, innovation, and smart investments that support long-term reliability and service excellence for our clients.

Our Mission:-

To deliver reliable, high-quality pump solutions with great service and support. We aim to meet our customers' needs through trusted products.

التميز في المضخات وحلول الأنظمة المتكاملة – TVIS شركة

من *مضخات عالية الأداء وأنظمة مضخات متكاملة* في توفير TVIS تتخصص شركة
مُصنّعين عالميين موثوقين، بما يلبي احتياجات العملاء المتنوعة في مختلف القطاعات

تقديم **قسم تجميع وحدات المضخات** وبالإضافة إلى توريد المضخات عالية الجودة، يتيح لنا
، جاهزة للتشغيل الفوري في مواقع *أنظمة مضخات مُجمّعة مسبقًا ومُصممة حسب الطلب*
يتم تصميم كل وحدة بعناية لضمان الأداء الأمثل، مما يقلل من وقت التركيب ويحد من العمل
المشكلات التشغيلية.

سواء كنت بحاجة إلى حل بسيط للاستخدام السكني أو نظام عالي السعة للتطبيقات الصناعية،
التكوين الدقيق والتميز الفني في كل مشروع TVIS تضمن

:نخدم مجموعة واسعة من القطاعات من خلال حلول ضخ موثوقة وفعالة تشمل

- العمليات الصناعية
- أنظمة المياه السكنية والمنزلية
- شبكات الري الزراعي وأنظمة الفلترية
- خدمات المباني والبنية التحتية المدنية
- معالجة مياه الصرف الصحي والنفايات
- استخراج المياه الجوفية والآبار العميقة
- المسابح ومرافق الاستجمام والعناية
- أنظمة المياه الساخنة والمبردة

TVIS Specialize in High-Quality Pumps and Complete Pump Systems

We specialize in supplying high-quality pumps and complete pump systems from **trusted global manufacturers**, tailored to meet the diverse needs of our customers.

In addition to supplying premium pumps, **we also offer custom pump set assembly through our dedicated Pump Set Assembly Unit**, which enables us to provide tailored, pre-assembled pump systems that are ready for immediate use in your operations.

Whether it's a pump for a small-scale residential setup or a complex, industrial application, **our assembly unit ensures your systems are perfectly configured for optimal performance, reducing installation time and minimizing operational issues.**

We serve a wide range of sectors with reliable, efficient solutions including:

- Industrial Operations
- Residential and Domestic Applications
- Agricultural, Irrigation and Filter Systems
- Building Services and Civil Infrastructure
- Wastewater and Sewage Handling
- Groundwater Extraction
- Swimming Pools and Wellness Facilities
- Hot Water, Chilled water and Water Circulation Systems.

TOPIC - 1

Products & Applications

VERTICAL INLINE PUMP

Applications

- Pressure boosting in buildings and industry
- Reverse osmosis and ultra filtration systems
- Fire fighting, Boiler feed and condensate systems
- Washing and cleaning systems.

STANDARDIZED END SUCTION PUMP

Applications

Suitable for circulation of water in industries Hot & cold-water circulation plant, power station, mine drainage, lift irrigation, sprinkler systems, fire fighting, booster service, pumping brine, alkaline solutions, oils, benzene etc.

BACK PULL-OUT BARE SHAFT PUMP

Applications

Municipal water supply, water supply for residences & high-rise building, heating and Chilled water plants, water recirculating application, irrigation.

HORIZONTAL SPLIT CASING PUMP

Applications

Suitable for handling water with slight impurities in: Industries, water works, irrigation, fire - fighting, water circulation, Chilled water plants, processing plants, paper, Sugar and textile mills etc.
power plants, refinery, storm water, sprinkler irrigation, waste water treatment plants, fertilizer plants.

HORIZONTAL SPLIT CASE FIRE PUMPSET

Applications (UL/FM & NON – UL/FM)

Commercial complexes and high-rise buildings, Petrochemical industries and Gas plants, Oil and Gas on-shore & off-shore platforms, Oil terminals Airports and ports, Jetties, Marine applications, Power stations and transformer stations, Chemical industries, Manufacturing plants, Fire-work industries, Warehouses/godowns.

ELECTRICAL FIRE PUMPSET

Applications (UL/FM & NON – UL/FM)

Commercial complexes and high-rise buildings, Petrochemical industries and Gas plants, Airports and ports, Jetties, Marine applications, Power stations and transformer stations, Chemical industries, Manufacturing plants, Fire-work industries, Warehouses/godowns.

CLOSE-COUPLED VERTICAL IN-LINE PUMP

Applications

- Hot & cold-water circulation systems
- Pressure boosting systems
- Industrial applications
- Water supply
- Fire protection system.

SEWAGE, DRAINAGE & GRINDER PUMP

Applications

- Water extracting from rivers, lakes & reservoirs
- Waste water sump drainage, flood control, dewatering for fish pond & basement
- Drainage of sewage from building basement, hotel industrial process factories.

MUD PUMP

Applications

Where self priming action is required, marine - pumping water from docks, ports, vessels, Industrial - Pumping petroleum products, chemicals, effluents, sewage, ash-water etc., civil construction - dewatering foundations, trenches and pits, mobile machinery - cooling water for marine engines and shovels, public utilities - sewage pumping.

INDUCTION MOTOR

Applications

• Three Phase Motor :

Pumps, cranes, hoists & lifts, compressors, cement plants, flour mills, paper mills, lathe machines, textile machineries

• Single Phase Motor :

Atta chakki, wet rice grinder, industrial sewing machines, commercial juicers, diamond stone cutters & polishers etc.

STAINLESS STEEL SUBMERSIBLE PUMP

Applications

- Irrigation from open wells especially where there is wide fluctuation in water levels
- Community water supply open wells
- Fountains
- Canals / river belt irrigation
- Water supply for high-rise building.

CAST IRON SUBMERSIBLE PUMP

Applications

- Irrigation of fields / farms
- High-rise building
- Community water supply
- Housing complexes
- Industries
- Bungalows.

STAINLESS STEEL CENTRIFUGAL PUMP

Applications

Water supply, pressure boiler feeding, pure water treating systems, pharmaceutical and food stuff, refining chemical industries, industrial washing and sprinkler system.

PRESSURE BOOSTER SYSTEM

Applications

- Water works • Block of flats • Hotels • Industries • Hospitals.

OPENWELL SUBMERSIBLE PUMPSET

Applications

- Irrigation from open wells especially where there is wide fluctuation water levels
- Community water supply from open wells
- Fountains
- Canals / river belt Irrigation
- Water supply for high-rise building.

THREE PHASE MONOBLOCK PUMP

Applications

- Irrigation of fields / farms
- Community water supply
- Industries
- Housing complexes
- Fire fighting system.

SINGLE PHASE MONOBLOCK PUMP

Applications

Water supply, Hot & cold-water circulation, Chilled water and circulation plants, civil and industrial applications, pressure boosting, fire fighting applications, irrigation.

PRESSURE BOOSTER SYSTEM

Applications

- Bungalows
- Flats / apartments
- Hotel
- Industry
- Gardening
- Car Washing.

SELF PRIMING MONOBLOCK PUMP

Applications

- Irrigation of fields / farms
- High-rise building
- Community water supply
- Housing complexes
- Industries
- Bungalows.

SWIMMING POOL PUMP

Applications

- The main application of the LSH pump is recycling & filtering of water in small, medium & large size swimming pools
- Basket filter to filter out leaves, twigs & other large solids
- Skimmer & pool filter
- Pumping pool water being disinfected by chlorine.

Pressure Tank & Expansion Tank

Applications

Ideal pressure for heating, solar and cooling water systems as well as pressure boosting systems

Maintain a stable water balance

Compensate for volume differences at regulated pressure and prevent gas separation and cavitation

Expansion vessels provide an easy but smart solution.

No external power, no electrical power, no compressor or pump is required

- Water supply application
- Sanitary hot water applications
- Heating, ventilation and Chilled water applications.

Our Global Manufacturing Partners

Electrical & Mechanical material portfolio

➤ Electrical Portfolio

- Circuit Breakers
- Motor Circuit Breakers
- Contactors
- Overloads
- VFD & VSD
- Soft-Stater
- Cables & Accessories
- Termination & Heat Shrink Tubing
- Plugs & Sockets
- Distribution Equipment
- Earthing & Lightning Protection
- Conduits & Fittings
- Plugs & Sockets
- Exothermic Welding
- Cable Tray System.

➤ Mechanical Portfolio

Product Range

➤ PIPES

Seamless Pipe, EFW Electric Fusion Welded Pipe, ERW Electric Resistance Welded Pipe, DSAW Double Submerged Arc Welded Pipe, Forged Pipe.

➤ FLANGES

Slip On Flange, Blind Flange, Weld Neck Flange, Socket Weld Flange, Threaded Flange, Lap Joint Flange, Orifice Flange, Spectacle Blind Flange, Spades and Spacers, Anchor Flange, Swivel Ring Flange, Bespoke Flanges, Flanged Fittings.

➤ BUTTWELD FITTINGS

Buttweld Fittings, Buttweld Elbow Fitting, Buttweld Tee Fitting, Buttweld Cross Fitting, Buttweld Cap Fitting, Buttweld Stub End Fitting, Eccentric/Concentric Reducer Fitting, Screwed Cross Fittings.

➤ SCREWED FITTINGS

Screwed Elbow Fittings, Screwed Tee Fittings, Screwed Couplings, Screwed Cap Fittings, Screwed Union Fittings, Screwed Plugs, Screwed Bushes & Hex Bushes, Pipe Nipples and Barrel Nipples, Concentric Swages and Eccentric Swages, Buttweld Branch Outlet Fittings, Male/Female 90° Street Elbows, Welding Bosses.

➤ SOCKET WELD FITTINGS

Socket Weld Elbow Fittings, Socket Weld Tee Fittings, Socket Weld Cross Fittings, Socket Weld Couplings, Socket Weld Cap Fittings, Socket Weld Union Fittings, Pipe Nipples and Barrel Nipples, Concentric Swages and Eccentric Swages, Socket Weld Reducing Inserts, Welding Bosses.

➤ VALVES

Gate Valves, Ball Valves, Buttweld Branch Outlet Fittings, Globe Valves, Check Valves, Butterfly Valves Safety Valves, Needle Valves.

➤ FASTENERS AND STUD BOLTS

Fasteners, Stud Bolts, Teflon Coated Bolts, Nuts & Washers, Pipe Hangers.

➤ GASKETS AND INSULATING KITS

Steel Reinforced Rubber Gaskets, Metal Jacketed Gaskets, Serrated Metal Gaskets, Insulating Kits, Non Asbestos Gaskets, Rubber Gaskets, Neoprene Sheet, Non Asbestos Sheet.

Our Global Partners

➤ We also trade all kinds of Electro-Mechanical or any kind of hardware based on Project requirements, as it needs to make sure the end-to-end services are provided to customers with satisfaction.

TOPIC - 3

➤ **Inspection Service:**

TVIS specializes in the inspection service, Failure to operate fire & all types of pumps can lead to huge losses, requiring, iodic inspection, maintenance, and testing of the pump to ensure it is working properly, not only in supplying your products and accessories but also in its life cycle. We ensure an overhaul of and the pump and pump stations, recommend repair or replacement, and also, we provide **Testing & Commissioning** services with experienced service specialists on hand to support you during pump commissioning, making sure that operation is reliable and efficient.

➤ **Installation Service:**

TVIS offers an exceptional pump installation service for commercial & industrial, pump applications. Any pumps can be installed quickly and efficiently by following the manufacturer's standards. We guarantee that your system is installed properly from the first day and operating with maximum efficiency.

Peace of mind knowing that your pumps will be properly installed, tested & commissioned. A copy of the test report is to be handed over and a valid warranty certificate is accordingly. Flexibility in organizing and managing the Testing & Commissioning in coordination with Clients.

➤ **Service & Support:**

- ❖ Full inspection
- ❖ Replacement of all wear & damaged parts
- ❖ Testing after assembly and inspection
- ❖ Makes your pump move as new again
- ❖ Replacement Service.

TVIS specializes not only in supplying your products and equipment but also in supporting it in its life cycle with over wide of years of experience. We provide services for multi-branded, UL-listed fire pumps, Non-UL, valves and controls, heaters, and control panels throughout the installation, optimization, repair, testing and commissioning, maintenance, and replacement of pumps. Our goal is to always provide high-quality services to our customers. We will closely monitor the condition of all parts of the pump station.

We provide the best services with customer satisfaction for many applications such as water transfer pumps, water booster pumps, chilled water pumps, heat circulation pumps, fire protection pumps, drainage & sewage pumps, etc.

We understand that timing is critical to water pump service and we return the pumps on time. In the unfortunate event of a pump that is beyond repair, our teams work under pressure promptly and update regularly.

In the case of a **service contract** with Sultanah Sulaiman Al Enazi Establishment, you can benefit from the following:

- ❖ Prompted to change the spare parts as recommended by manufacturers before problems occur
- ❖ Avoids downtime by performing the necessary repair work on time
- ❖ Oil and grease lubrication to keep your equipment rotating.

TOPIC - 4

➤ **Maintenance Service:**

TVIS offers an efficient and reliable pumping station maintenance service. We specialize in large industrial or commercial operations. Keep peace of mind that your pumping system should work, and we keep an eye on your pumps to eliminate failures and manage the performance and efficiency of your system without fail.

- ❖ Protecting problems will keep your system running smoothly
- ❖ We make sure you get the best performance from every pump and pump system
- ❖ Allows you all the time you need to focus on your business
- ❖ Maximize the performance and efficiency of the system
- ❖ Testing & Commissioning Service.

➤ **On-Site Service & Support:**

Instead of sending your pumps for repair at the workshop, our team of highly skilled service technicians will come to you and resolve any kind of pump problem. This can save you time. We specialize in repairing all kinds of pumps.

- ❖ Reduced downtime and spending
- ❖ There is no need to dismantle and reassemble installations
- ❖ Clears the overview of repair costs
- ❖ Ensures that you get the maximum performance from every pump and pump system
- ❖ Workshop Repair Service

Suppose you need to thoroughly inspect your pumps or the pump is highly damaged, it is best to bring your pumps to our workshop, our repair team will review it with a full inspection and resuscitate the pumps. Making them more efficient and reliable.

TOPIC - 5

➤ **Products & Brands (Electrical & Mechanical)**

We are more familiar with all major brands for Electrical and Mechanical & also have priority support from all brands for technical & Sales.

Electrical Brands:

Siemens, Schneider(se), ABB, Danfoss, GE, Eaton, LSIS, Emotron, Lovato & Others as per project requirements.

Mechanical Brands:

All types of brands are available in KSA & As per the project requirement even required to import.

Our Services:

TVIS will provide a broad range of technical services

Control Panel Solutions:

- ❖ Main Power Panel
- ❖ Deep well Control Panel
- ❖ Water Transfer Control Panel
- ❖ Water booster pump control Panel
- ❖ Chilled water pump control Panel
- ❖ Hot & cold-water circulation pump control Panel
- ❖ Submersible (Sewage & Other Applications)
- ❖ Lift Station control panel
- ❖ Non-UL/FM & UL/FM Fire Fighting Control Panel
- ❖ BMC, EMS, SCADA, DDC & Other Control panels
- ❖ Industrial Control Panels
- ❖ Compressor Control Panel
- ❖ Air Ventilation Control.

Fire Pump Set

TOPIC - 8

➤ **Electrical Control Panel:**

TVIS provides solutions, designs, and builds all control panels suitable for the entire range of pump solutions and systems based on project specification requirements. Control panels are equipped with all necessary components and accessories for reliable and easy operation. Our team will provide all types of control panels for water applications as mentioned above. Reference **(1. Control Panel Solution Topic-6)**.

TVIS provides Non-UL/FM Fire Systems of End suction pumps for Fire suppression based on project and industrial requirements. It consists of either two Electric or one Electric and one Diesel end-suction pump with the motor along with the main panel electrical and diesel pump, diesel engine, Jockey pump, fuel tank, and accessories based on project requirement. We deliver on a common steel frame, pressure switch, pressure gauge, and manifolds as standard.

➤ **Water Pump Systems:**

TVIS provides the most efficient, reliable, and Premium-Quality assembled water solutions. Producing centrifugal water pump sets for different applications such as water booster pumps, water chiller pumps, non-UL / fire pumps, and submersible sewage & drainage pumps with control panels. TVIS can customize most of the requests to be able to handle special flow rates, pressures & other demands.

We are providing the best services with customer satisfaction for many applications as mentioned above. Reference **(2. Water Pump Systems Topic-7)**

The TVIS Team is focused on delivering the pump promptly & quality assurance team assures high standards.

TOPIC - 9

➤ **Booster Water Pumps:**

TVIS provides locally assembled pressure-boosting systems that are suitable for all types of projects based on requirements. The system includes Vertical multistage pumps, Vertical-in Line pumps, End suction pumps, a Base frame, a Control Panel, a Variable frequency drive, a pressure switch or pressure transmitter, manifolds and valves, and a pressure tank depending upon the project requirement and customer customization requirement. Our Systems are easy to programmable, with a friendly operating interface, and Equipped with a monitoring system.

TVIS Trading & Contracting also provides the below services

➤ **Power Generation:**

- Diesel Generating sets
- Synchronizing & Power Management Systems
- Control & Auto Transfer Panels
- Cabling & Termination.

➤ **Low and Medium Voltage Power Distribution Networks:**

- Underground Cabling
- Overhead Lines
- Indoor & Outdoor Switchgears
- Package Substations
- Energy Meters
- Jointing & Termination.

➤ **ELECTRICAL AND MECHANICAL SERVICES:**

- Main Distribution Boards
- Sub main Distribution Boards
- Cabling, Jointing & Termination
- Complete Electrical Distribution
- Internal, External, and Emergency Lighting
- Standby Generators
- UPS Systems.

➤ **ELECTRICAL AND MECHANICAL SERVICES:**

- Bus-bar Riser Systems
- Lightning Protection Systems
- Lighting Control Systems
- Fire Detection / Alarm Systems
- Card Access Systems
- CCTV / Security Systems
- Audio & Visual Systems
- Voice / Data Structured Cabling
- Building Management System
- HVAC (Heating, Ventilation & Air-conditioning)
- Refrigeration System
- Smoke Exhaust System
- Mechanical Car Park Ventilation System
- CO Monitoring & Control System
- Fire Sprinkler / Protection System
- FM 200 & Deluge System
- Plumbing and Drainage
- System Integration.
